We have decided to create a way to get the word out on YJ as quickly as we can. This new way is by Fundraising with YJ! We have built a site explaining how it works. If you sign up as an IBO under us you will have access to promote YJ as a fundraiser using all the promotional materials and technology that we have invested in creating this new and exciting way to get YJ in every fridge. Check out the site here.

I have a question for you. Would you rather have a million dollars today or a penny doubled ever day for 30 days?

Say Yes To The YouthJuice Revolution

If you said that you'd take the million you'd be missing out on 4.3 million dollars. A penny doubled ever day for thirty days is $5,368,708.12. How incredible is that!

How does this relate to YJ? Well, really making money with YJ is about the power of duplication.

If you sign up to sell YJ for as low as $350.00 USD, you get two cases of YJ (a $240 value) and the opportunity to share YJ along with all the tools you need to get you selling. If you sign up 2 people who want to share it, you can make $200.00 per week. If you tell two more people, you'll be making $600 a week. If they tell two, and they tell two, and they tell two, and so on and so on... well before you know it you'll have thousands of people that you have introduced to YJ, and you will be making thousands and thousands of dollars every week.

It's really that simple.

Contact me if you have any questions.

Watch a great video by Dr Heyman regarding YJ. The video is called YouthJuice University and is about and hour and a half long. Dr. Heyman talks all about how YJ is great for boosting immunity to disease, and how YouthJuice provides 100% of your daily recommended vitamins and minerals, plus anti-oxidant, anti-aging, anti-inflammatory and detoxifying qualities.

The following presentation was put together to fully explain Youth uice, both the product and the “Drink it - Share it” philosophy. There are four short movies that take about 10 minutes or so to watch.

If you have any questions at all please feel free to contact us.

Check it out after the jump.

One of my friends just shared this with me.. Theo Fleury has started taking YouthJuice. Check out his comments on the topic.

FLEURY SHARES ONE OF HIS HEALTH SECRETS

2009-10-06

I was introduced to YouthJuice about five weeks before training camp with the Calgary Flames. I can't tell you how much YJ helped me and how amazing I felt the moment I started taking it. YouthJuice helped me to take my fitness to the next level, I lost 10lbs which helped me at the age of 41, finish 11th overall in fitness testing at the opening of training camp, beating out guys half my age. My life is hectic and I need the energy to sustain me through the day. YouthJuice gives me the boost that I need. This is an amazing product! So amazing that both my wife Jennifer and daughter Skylah are also taking it. Get on the program and remember "Don't Quit Before The Miracle". *Theo Fleury #14 Forever*

What is YouthJuice?

YouthJuice was born from the seed of an idea and extensive research surrounding the benefits of Ellagitannins found in the Red Raspberry seed. Finally, an anti-aging product hailed by medical professionals as a powerful preventative and proactive answer to daily health.

YJ scientists then added whole berries and sea vegetables from the pristine Pacific Northwest. These nutritional powerhouses are backed by thousands of clinical studies that support what has become the most complete functional food on the market today… a modern day bio-available multi-vitamin and so much more…

200 mg of Ellagitannins and Fucoidan.

YouthJuice™ is hailed by medical researchers for providing the first and most complete biochemical profile of phytochemicals and polyphenols for ultimate health and longevity.

Recommended Use:
1-3.2 fl. oz. (30-95mL) of YouthJuice™ daily.

Shake well. Do not use if safety seal is broken. Refrigerate after opening.

Consult a health care practitioner prior to use if you are pregnant, breast-feeding or taking blood thinners.

YouthJuice™ est le premier super jus phytonutritif. YouthJuice™ est cultivé naturellement. Reconnu par nombreux chercheurs médicaux pour en avoir le plus complet profile biochimique. YouthJuice™ comprend les phytochimiques et polyphénols tel que l'acide ellagique et le fucoidan pour garantir la meilleure santée et longevitée possible.

Mode d'emploi recommandé:
1-3.2 fl. oz. (30-95mL) de YouthJuice™ par jour.

Bien agiter. N'utiliser pas si le sceau d'inviolabilité est brisé. Réfrigérer aprés d'ouvrir.

Consultez un practicien de soins de santé avant l'utilization si vous êtes enceinte, allaitez ou prenez des médicaments anticoagulants.

Ingredients/Ingrédients: Red raspberry, blueberry, blackberry, boysenberry, cranberry, blackcurrant, elderberry, fucoidan, bladderwrack (rockweed), ulva, fructose, potassium sorbate/framboises rouges, bleuets, mûres, myrtilles, canneberges, cassis, baies de sureau, fucoidan, bladderwrack (lactuca), fucus gardneri, fructose, sorbate de potassium.

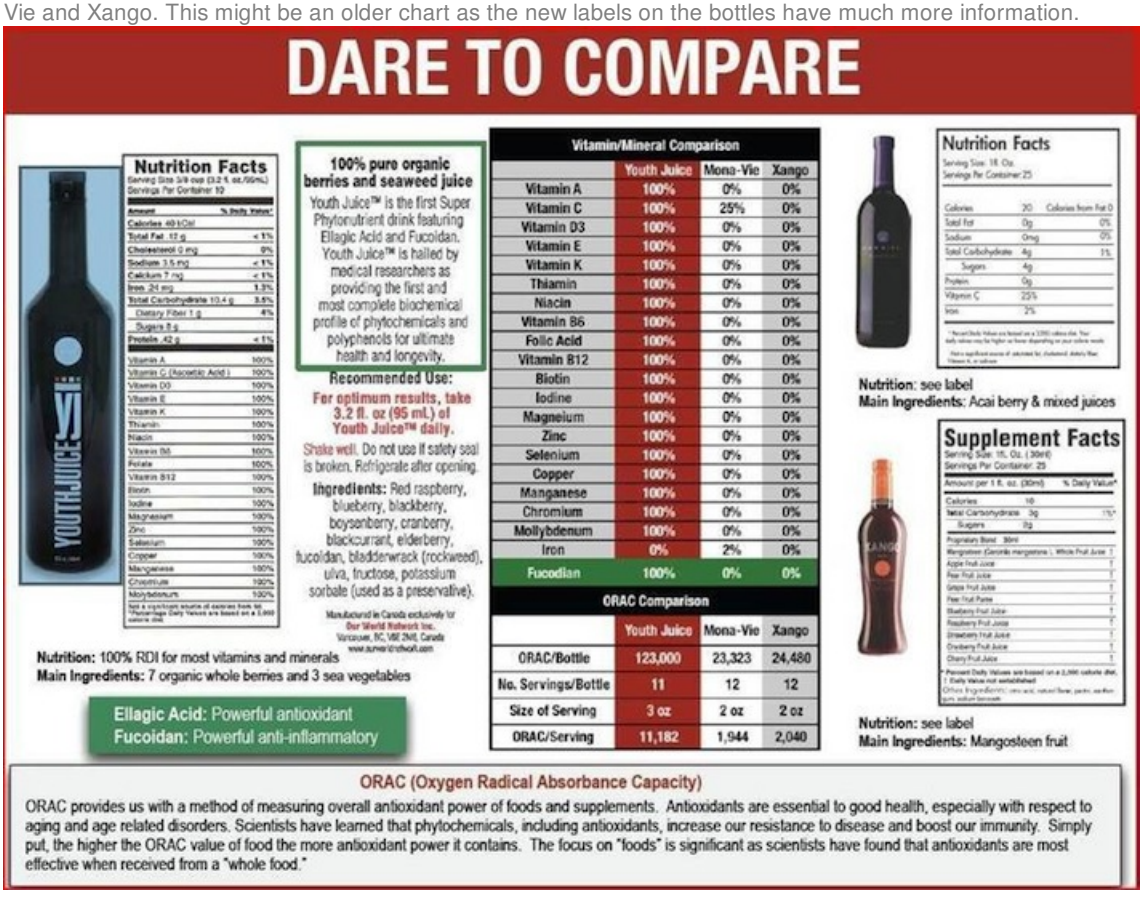
Wow... nice little chart that I found out on the interweb comparing the nutritional facts of YouthJuice against Mona-Vie and Xango. This might be an older chart as the new labels on the bottles have much more information.



[redacted]

05/10/09 13:42

The independent scientific report on the YouthJuice at checkthescience.com by the Internet Journal of Pediatrics and Neonatology is highly cited as the article to read if you want to know everything about YouthJuice.

“YouthJuice currently yields the highest ORAC value of any product on the market (12,350 per serving). In the world of antiaging medicine highest ORAC translates to highest antiaging effects. Youth Juice is manufactured following the stringent industry standards called Good Manufacturing Practice (GMP), These standards assure the superior quality and safety of the juice. Antiaging physicians classify Youth Juice as the top antiaging functional food product currently available. It is truly Science in a Bottle.

05/10/09 13:42

YouthJuice contains Black Elderberries, Red Raspberries, Blackberries, Ocean Greens, Blueberries, Black Currents, Boysenberries, Cranberries, Rockweed and Ulva and Fucoidan. Wow that’s quite the stellar line up. I

wonder what Ocean Greens ingredients are exactly, but other than that everything look quite eatable... err drinkable. But honestly, once you try your first sip, you'll be saying yeah this is good for me, and tasty too!

For the complete list of ingredients you can head here.
